

Kennelly Tax Advisers – a global tax perspective

KTA joined the International Tax Specialist Group (ITSG) in May 2012.

The ITSG is an independent international network of tax specialists and membership of the network is by invitation only.

We are confident that our membership of this network enhances our ability to source timely and relevant specialised tax advice from around the world. In recent years we have successfully worked with a number of ITSG members in Europe, North America and Asia on a variety of complex tax structures.
